

CITY OF MIAMI
PLANNING DEPARTMENT

Staff Report & Recommendation

To: Chairperson and Members
Historic Environmental Preservation Board

From: Megan Schmitt
Preservation Officer

Applicant: **City of Miami, Preservation Office**

Subject: **Item No. – Historic Design Guidelines**

The applicant, City of Miami, Preservation Office, is requesting approval of the Historic Design Guidelines for the City of Miami.

BACKGROUND AND ANALYSIS:

The Preservation Office has updated our core Historic Design Guidelines that were initially adopted by the Historic and Environmental Preservation Board in September 2011. We have asked our neighborhood organizations as well as members of the HEPB to review the Historic Design Guidelines and provide input, comments from this initial outreach have been incorporated into this updated version.

Additionally, we held a Design Guidelines Workshop on Wednesday, March 23rd at Legion Park providing mailed notices to all property owners within designated historic districts and to property owners of individually designated properties. We had 50 property owners in attendance where we introduced the update with a PowerPoint, allowed time for open question and answer, and had stations set up so that property owners could view the various portions of the design guidelines and ask additional questions.

This document covers the core design guidelines including the following chapters:

- Introduction and General Information
- Architectural Styles
- Exterior Maintenance and Alterations
- Site Improvements
- Sign Design Standards

The following additional chapters are currently being drafted and will be presented at a later date for adoption:

- New Construction and Additions
- Sustainability
- Commercial Historic Districts
- Residential Commercial Districts
- Incentives

Going forward, we also plan to work with each neighborhood to update or develop neighborhood specific guidelines, if needed, and as appropriate.

STAFF RECOMMENDATION:

The Preservation Office recommends that preliminary approval of the Historic Design Guidelines for the City of Miami be **Approved**.

Ad Valorem Tax Exemption FAQs

Historic Preservation Ordinance

Environmental Preservation Ordinance

COA is required for work that would change the exterior appearance of a designated historic property. This includes alterations, additions, new construction, or demolition. Minor improvements, such as painting or window replacement, may be approved by City staff upon submission of a COA application. More extensive work requires review by the Historic and Environmental Preservation Board (HEPB). Review insures that any proposed changes are compatible with the character of the individual property and/or historic district.

Design Guidelines features specific guidelines with information regarding appropriate treatments for alterations, additions, and new construction.

Application Forms provides the appropriate forms needed to apply for COAs.

Ad Valorem Tax Exemption is a City of Miami and Miami-Dade County program to assist the owners of Designated Historic Properties. For more information, and to obtain an application, contact the Preservation Office.

For more information about the COA process, refer to the **Historic Preservation Ordinance** and the **Environmental Preservation Ordinance**.
